

The Orbiter 237 Trommel is a massive screening screening unit for the large operator and creates a radial fines stockpile to optimise screening time and reduce double-handling of fines material.

Orbiter 237

- Cat 3.6 Engine 100kw (C4.4 LRC)
- 12m³ Hopper
- 1500mm Fines Collection Conveyor
- 2000 x 7000mm drum
- Radio Remote Control for tracks and radial
- 1200mm Fines Conveyor (radial)
- 1200mm Feed Conveyor
- 30,000kg
- 1050mm Overs Belt
- Transport width 2895mm
- Load Sensing Drum
- Hydraulic Adjust Screen Angle
